Dear Examiner Davis:

As a means of complying with the duty of disclosure under 37 CFR §§ 1.97 and 1.98, applicants submit a "List of References Cited by Applicant" on the attached modified PTO-1449 form and provide a copy of the listed references other than published U.S. patent applications and issued U.S. patents for consideration by the Examiner.

Applicants make no determination of relevancy with respect to the references submitted herewith and request the Examiner to make an independent determination of relevance and/or materiality of the references.

The documents listed on the enclosed modified PTO-1449 form and included herewith include a search report conducted by the Austrian Patent Office and completed on January 2, 2009, and mailed to the Intellectual Property Office of Singapore on January 30, 2009, for a corresponding patent application in Singapore, and two PCT applications which have not previously been submitted with respect to this application. The other three documents (WO 99/11255, US 6,506,757, and WO 2004/000315) cited in the Austrian Patent Office search report have previously been submitted in information disclosure statements with respect to this patent application.

Identification of the listed references is not to be construed as an Admission by Applicants or attorney for Applicants that such references are available or qualify as "prior art" against the subject application. Applicants reserve the right to remove any such reference which the Patent and Trademark Office may cite against the subject application.
